Section A

Core Studies

1 From Baron-Cohen et al.'s (1997) study into autism in adults:

(a) Identify **one** group of participants in this study and outline **two** features of that group.

.....

.....

.....

.....

.....

..... **[3]**

(b) Outline the effect the participants' gender had on their responses in the Eyes Task.

.....

.....

.....

.....

..... **[2]**

© OCR 2024

2 From Hancock et al.'s (2011) study into the language of psychopaths:

(a) Explain **one** reason why the interviewer was not told the participants' scores on the psychopathy test.

.....

.....

.....

.....

..... **[2]**

(b) Outline **one** weakness of the sample used in this study.

.....

.....

.....

.....

..... **[2]**

© OCR 2024

3 From Levine et al.'s (2001) study into cross-cultural altruism:

(a) Describe the dependent variable in **one** condition of this study.

.....

.....

.....

.....

.....

..... **[3]**

(b) Explain how this study links to the key theme of responses to people in need.

.....

.....

.....

.....

.....

.....

.....

..... **[3]**

4 Outline the background to Chaney et al.'s (2004) Funhaler study.

.....

.....

.....

.....

.....

.....

.....

..... **[4]**

© OCR 2024

5 Explain why Kohlberg's (1968) study into moral development is considered a longitudinal study.

.....

.....

.....

.....

.....

.....

.....

..... **[3]**

© OCR 2024

6 From Moray's (1959) study into auditory attention:

(a) Describe how **one** control was used in this study.

.....

.....

.....

.....

.....

..... **[3]**

(b) Outline **one** conclusion Moray (1959) made in relation to attention.

.....

.....

.....

.....

.....

..... **[2]**

7 Briefly explain how Simons and Chabris' (1999) study into visual inattention changes our understanding of attention, when compared to Moray's (1959) study into auditory attention.

.....

.....

.....

.....

.....

.....

.....

..... **[3]**

© OCR 2024

8 Explain why Grant et al.'s (1998) study into context-dependent memory can be placed in the cognitive area.

.....

.....

.....

.....

.....

.....

.....

..... **[3]**

9 Identify **two** ways Maguire et al. (2000) matched the two groups of participants in their study of taxi drivers.

1 .....

.....

.....

2 .....

.....

.....

Section B

Areas, perspectives and debates

10

(a) Describe **one** application of the biological area.

.....

.....

.....

.....

.....

.....

.....

..... **[3]**

(b) Outline the procedure of Casey et al.'s (2011) study into neural correlates of delay of gratification **and** explain why this study has been placed in the biological area.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... **[6]**

© OCR 2024

(c) Explain how research from the developmental area can be considered to support the nurture side of the nature/nurture debate. Support your answer with evidence from **one** appropriate core study.

.....

.....

.....

.....

.....

.....

.....

..... **[3]**

© OCR 2024

(d) Discuss ways in which the biological area is similar to the developmental area. Support your answer with evidence from appropriate core studies.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... **[8]**

© OCR 2024

(e)* Discuss the usefulness of psychological research placed in the developmental area. Support your answer with evidence from appropriate core studies. **[15]**
