STEMUP

These questions belong to AQA, not to us.

The examination questions, mark schemes and examiner reports in this pack were written and published by AQA. They are past assessment materials, reproduced here so that students can revise from them.

What we do not own

STEMUP is not affiliated with AQA and does not own, and makes no claim to own, any of the question, mark scheme or examiner report material in this pack. AQA has not endorsed, approved or been involved in the production of it. AQA and the qualification titles used here belong to their respective owners and appear for identification only.

Where to find the originals

AQA publishes its past papers, mark schemes and examiner reports free of charge. Always check the current specification at aqa.org.uk before you revise, because content and wording can change between series.

If you hold the rights to any material in this pack and would like it amended or removed, contact admin@stemup.co.uk and we will act on it.

Q1.

Outline the behaviourist approach. Compare the behaviourist approach with the biological approach.

(Total 16 marks)

Q2.

Outline key features of the cognitive approach in psychology. Compare the cognitive approach with the psychodynamic approach.

(Total 16 marks)

Q3.

Explain **one** way in which social learning theory overlaps with **one other** approach in psychology.

(Total 2 marks)

Q4.

It has been claimed that the humanistic approach has little to offer psychology. Outline and evaluate the humanistic approach in psychology. Refer to **at least one other** approach in your answer.

(Total 16 marks)

Q5.

A student asked his teacher: “Why are there so many approaches in psychology?”

The teacher replied: “Because each has something different to offer to our understanding of the human mind and behaviour. This means that every approach is unique.”

Discuss what makes the psychodynamic approach unique in psychology. Refer to other approaches in your answer.

(Total 16 marks)

Q6.

Outline and evaluate social learning theory. In your answer, make comparisons with **at least one** other approach in psychology.

(Total 16 marks)
