STEMUP

# These questions belong to AQA, not to us.

The examination questions, mark schemes and examiner reports in this pack were written and published by AQA. They are past assessment materials, reproduced here so that students can revise from them.

## What we do not own

STEMUP is not affiliated with AQA and does not own, and makes no claim to own, any of the question, mark scheme or examiner report material in this pack. AQA has not endorsed, approved or been involved in the production of it. AQA and the qualification titles used here belong to their respective owners and appear for identification only.

## Where to find the originals

AQA publishes its past papers, mark schemes and examiner reports free of charge. Always check the current specification at aqa.org.uk before you revise, because content and wording can change between series.

If you hold the rights to any material in this pack and would like it amended or removed, contact admin@stemup.co.uk and we will act on it.

**Q1.**

Briefly explain how dopamine is involved in nicotine addiction.

**(Total 2 marks)**

**Q2.**

Outline and evaluate **one or more** explanations for nicotine addiction.

**(Total 8 marks)**

**Q3.**

Outline and evaluate the biological approach to explaining smoking behaviour.

**(Total 8 marks)**

**Q4.**

Outline the learning model of addiction.

**(Total 4 marks)**

**Q5.**

'The more young people see smoking in cinema and TV films, the more likely they are to start smoking themselves.'

Use your knowledge of research into the role of media in addictive behaviour to explain why such films might encourage young people to start smoking.

**(Total 4 marks)**
