STEMUP

These questions belong to AQA, not to us.

The examination questions, mark schemes and examiner reports in this pack were written and published by AQA. They are past assessment materials, reproduced here so that students can revise from them.

What we do not own

STEMUP is not affiliated with AQA and does not own, and makes no claim to own, any of the question, mark scheme or examiner report material in this pack. AQA has not endorsed, approved or been involved in the production of it. AQA and the qualification titles used here belong to their respective owners and appear for identification only.

Where to find the originals

AQA publishes its past papers, mark schemes and examiner reports free of charge. Always check the current specification at aqa.org.uk before you revise, because content and wording can change between series.

If you hold the rights to any material in this pack and would like it amended or removed, contact admin@stemup.co.uk and we will act on it.

Q1.

Outline and evaluate the evolutionary explanation for food preferences.

(Total 8 marks)

Q2.

Using your knowledge of the role of learning in food preference, outline how parents might encourage their children to eat a healthy diet.

Read the item and then answer the questions that follow.

> Research has identified centres in the hypothalamus that are involved in the control of eating behaviour. Much of this research has used non-human animals, such as rats and mice.

(Total 4 marks)

Q3.

Briefly explain **one** limitation of the evolutionary explanation of food preferences.

(Total 2 marks)

Q4.

Briefly outline neophobia as an explanation for food preferences.

(Total 2 marks)

Q5.

'Attitudes to food and eating behaviour are influenced by a range of factors such as culture, mood and health concerns.'

Discuss research into factors influencing attitudes to food **and / or** eating behaviour.

(Total 16 marks)

Q6.

Outline and evaluate evolutionary explanations of food preference.

(Total 16 marks)

Q7.

Discuss the role of **one or more** factors that influence attitudes to food.

(Total 16 marks)
