STEMUP

These questions belong to AQA, not to us.

The examination questions, mark schemes and examiner reports in this pack were written and published by AQA. They are past assessment materials, reproduced here so that students can revise from them.

What we do not own

STEMUP is not affiliated with AQA and does not own, and makes no claim to own, any of the question, mark scheme or examiner report material in this pack. AQA has not endorsed, approved or been involved in the production of it. AQA and the qualification titles used here belong to their respective owners and appear for identification only.

Where to find the originals

AQA publishes its past papers, mark schemes and examiner reports free of charge. Always check the current specification at aqa.org.uk before you revise, because content and wording can change between series.

If you hold the rights to any material in this pack and would like it amended or removed, contact admin@stemup.co.uk and we will act on it.

Q1.

Describe and evaluate evolutionary explanations for human aggression.

(Total 16 marks)

Q2.

Read the item and then answer the questions that follow.

> News correspondents in inner cities have remarked upon how young males frequently carry weapons and engage in threatening behaviour.

Using your knowledge of evolutionary explanations of aggression, account for these high levels of aggression in young males.

(Total 4 marks)

Q3.

What are innate releasing mechanisms?

(Total 2 marks)

Q4.

Discuss evolutionary explanations of human aggression.

(Total 16 marks)
