

## UNIT 1 (HIGHER TIER)

| Methods Unit 1 Higher Tier June 2014                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Mark                                | Comment                                                                                  |   |   |    |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2. Considering all possible outcomes, e.g. use of two-way table, or showing all possible totals, or (Game card A) 6 possible (ways or outcomes) AND (Game card B) 16 possible (ways or outcomes)<br><br>Example:<br><table border="1"><tr><td>+</td><td>1</td><td>2</td><td>3</td><td>4</td><td>5</td></tr><tr><td>1</td><td>2</td><td>3</td><td>4</td><td>5</td><td>6</td></tr><tr><td>2</td><td>3</td><td>4</td><td>5</td><td>6</td><td>7</td></tr><tr><td>3</td><td>4</td><td>5</td><td>6</td><td>7</td><td>8</td></tr><tr><td>4</td><td>5</td><td>6</td><td>7</td><td>8</td><td>9</td></tr><tr><td>5</td><td>6</td><td>7</td><td>8</td><td>9</td><td>10</td></tr></table><br><br>Conclusion, game card B has the better chance<br><br>Look for: <ul style="list-style-type: none"><li>• clear organisation, ordered lists or tables</li><li>• labels linking working and game cards</li><li>• clear explanation in a conclusion</li><li>• if used, correct notation for probability</li></ul><br>QWC2: Candidates will be expected to <ul style="list-style-type: none"><li>• present work clearly, with words explaining process or steps</li></ul> <b>AND</b> <ul style="list-style-type: none"><li>• make few if any mistakes in mathematical form, spelling, punctuation and grammar and include units in their final answer</li></ul><br>QWC1: Candidates will be expected to <ul style="list-style-type: none"><li>• present work clearly, with words explaining process or steps</li></ul> <b>OR</b> <ul style="list-style-type: none"><li>• make few if any mistakes in mathematical form, spelling, punctuation and grammar and include units in their final answer</li></ul> | +
